

**The Friendship Tapestry for Camp SEE  
To be created over 2 weeks in July 2006  
in Liuzhou, PR China**

This public art project is designed to be created by 240 high school students and teachers in celebration of the friendships made during a summer English language camp. We used cloth, thread and beads, and paper slips with greetings gathered in Cincinnati. This Sister Cities cultural exchange project had a purpose to leave a reminder of time and effort spent together to establish mutual understanding.
