

Twin Lakes Mosaics • 2006

This 3-dimensional fountain project was designed for fabrication by lead artist and dozens of neighborhood workshop participants. The mosaics are located in a central gathering place at Twin Lakes, a senior living community in Montgomery, Ohio. Based on the principle of a mandala, the image interprets the nature of this vibrant seniors community. The process through which the art-making was approached employed the community's wellness philosophy. Twice-weekly workshop sessions provided ample opportunities for social, intellectual and emotional connection.
